

# WHAT TO DO AFTER AN ACCIDENT

## SAFETY

- Stay calm
- Turn on your indicator warning lights
- Only move your vehicle if it is safe to do so and there are no injuries.

## INFORMATION

- Collect information, if possible.
  - Third party name & surname
  - Address & telephone number
  - License & registration number
  - Insurance & towing company

## COMMON INJURIES

Whiplash, concussion, broken bones, contusions and abrasions or cuts.

Some injuries only become evident hours or days later.

## MEDICAL HELP

- Check for injuries and call ER24 on 084 124.
- Tell the call taker what happened and how many people are injured.
  - Provide first aid, if possible.

## IMPORTANT

- Provide exact location and landmark
  - Provide your telephone number
- State how many vehicles and type, i.e. truck, car, taxi, etc.
- State how many people are injured
  - State if anyone is trapped
    - State any dangers, i.e. vehicle on fire or chemicals
